### Professional

#### Flatiron School | Learn

*Ruby on Rails, BackboneJS, Postgres*

<http://learn.co>

Flatiron School's online learning platform. Solely owned development and maintenance of key analytics integrations.

#### Creme Global | CARES NG (now Expert Models)

*AngularJS, Django, Django REST Framework, Handsontable, Bootstrap, GruntJS*

<http://cremeglobal.com/em/>

Creme Global's core product, cloud based predictive analytics software. Built front-end foundation, and numerous core front-end features including dataset management tools and spreadsheet-style rich data editor.

#### Creme Global | Diet Ireland (now Foodbook 24)

*AngularJS, Django, Django REST Framework, Bootstrap, GruntJS*

<http://cremeglobal.com/products/foodbook24/>

Customisable 24 hour food recall survey application. Built front-end and back-end foundation. Collaborated on all front-end features.

#### Creme Global | RIFM Data Collection Tool

*Django, Handsontable, KnockoutJS*

Private

Data collection tool for fragrance industry. Built entire front-end to project completion, including basic file browser and customised spreadsheet-style data entry tool.

#### Creme Global | Listeria Growth Calculator

*AngularJS, Flask*

Private

Graphing tool; predicts bacterial growth curves based on user configured parameters. Solely responsible for final phase of project development, both front and back end.

#### Private Client | Fittom

*Ruby on Rails, Bootstrap, Google Analytics*

No longer live

Prototype fitness website. Took over half-finished project from previous developer and took it to completion.

---

### Personal

#### Milk Mustache

*Jekyll, Bourbon, Neat, JQuery, GruntJS*

<http://milk-mustache.com>

Fully responsive recipe blog. Has had a few incarnations over the years. Began as a Ruby on Rails project, recently ported over to Jekyll.

#### Crawl

*Phaser*

<http://sarahquigley.net/crawl>

Experiment in 2D gaming. Avoid the ants for as long as possible.

#### Phoneophone

*Web Audio API*

<http://sarahquigley.net/phoneophone>

An experimental multi-touch music making app using the Web Audio API.

#### Lime

*Ruby on Rails, BackboneJS*

<http://limetodo.herokuapp.com/>

App Academy final project. Single page task management web application.

---

### Old Work and Design Projects

#### See my old portfolio: [portfolio.sarahquigley.net](http://portfolio.sarahquigley.net)

New portfolio currently in the works. The current version shows off some of older projects and design work.
